REVISION OF REDUCERS WITH ORTHOGONAL AXES

SACMI for a longer equipment lifetime

Sacmi has signed an agreement with the Italian manufacturer Rossi SpA, supplier of reducers with orthogonal axes installed on MMC modular mills and MTC continuous mills.

This agreement allows SACMI to guarantee to its customers very advantageous price conditions and delivery times on the revision of the reducers model R C2I 400 and R C2I 451.

Continued production

YOUR ADVANTAGES

- Extension of the reducer life
- Reduction of maintenance costs
- Sacmi guarantee on the good result of the work
